

HAWORTH

# Planes

Height-Adjustable Benching

Planes® height-adjustable benching enables sit-to-stand posture changes to promote well-being throughout the day and enhance performance. People can easily position worksurfaces at the most ergonomic height. The Planes family also includes height-adjustable tables, training tables, and collaborative and conference tables.

#### Certifications

- BIFMA LEVEL 3 Certified
- GREENGUARD Certified
- FSC Certified
- May Contribute to Toward LEED Credits
- ETL listed to UL 962 and 1286

#### Features

- Manual and electric height-adjustment mechanism options
- Manual crank height adjustment mechanisms provide a 27"-45" range
- Electric height adjustment features two motors and offers three ranges:
  - Standard range (single stage): 27"-46"
  - Extended range (dual stage low): 22.5"-48.5"
  - (dual stage high): 24"-50"
- Simple up/down button handset; optional four-memory programmable handset
- Choose from single-sided, dual-sided, or 120° configurations
- Utilizes the same power system as other Haworth products for consistency across the floorplate
- Pair benching with screens in fabric, laminate, veneer, markerboard, or glass
- Wire management organizes and conceals cables and cords; options include cable chain accessory
- Base feed options support end or middle of the run power for access above or below the worksurface
- The base is available in Integrated Palette™ paint colors
